Recycling made easy.

Cost-Effective Recycling Solutions for Lighting and Electronic Waste.

We've partnered with the largest environmental services provider to offer you a turnkey recycling program for universal waste!

RecyclePak provides a safe, convenient and cost-effective way to ensure small quantities of fluorescent lamps, batteries, ballasts and mercury containing thermostats are properly recycled in accordance with federal, state and local disposal regulations. One price includes everything you need to begin recycling—packaging, freight to and from your facility, processing and certificates of recycling. Simply order, fill, seal and ship with the prepaid shipping label.

How it works.

1. Order RecyclePak by calling Elite Lighting toll-free at (800) 343-0764 or by completing the order form on the back of this flyer and faxing to (843) 464-3824
2. Your RecyclePak packaging will ship out within 24 hours. You should receive your packaging within 3-5 business days.
3. Open the RecyclePak packaging and follow the enclosed instructions to prepare your container for use.
4. Follow the enclosed instructions to carefully add your waste materials to be recycled. When full, secure container for shipping.
5. Fill out the prepaid return shipping label and call FedEx® Ground® toll-free at 1-888-777-6040 to arrange for a pickup.
6. FedEx® Ground® will pickup your RecyclePak container within 24 hours and deliver it to Veolia Environmental Services (VES) for processing.
6. VES will recycle your materials in accordance with federal, state and local laws and send you a certificate of recycling.

Why Recycle?

Fluorescent lamps, and some other types of commercial lighting may contain mercury, a toxic substance which is hazardous to human health. Improper disposal can lead to contamination of water supplies and fish consumed by humans.

Some ballasts may contain PCBs (polychlorinated biphenyls), a suspect carcinogen, also hazardous to human health.

*Federal and State regulations may prohibit businesses from disposing of these items in the solid waste stream. **

Why Veolia?

- Complete range of services
- Nationwide transportation
- On-time pickup
- Environmentally compliant
- Financially sound

* Contact your state regulatory agency for guidance. Manufacturers and regulators endorse recycling as the preferred method of disposal.

Compliance with Confidence®
